Spomenka is an excellent person with great skills in the yachting industry. She is very professional, approachable person and delivers always great service to the guests. She always lived near the sea and loves everything about sea and boats. She graduated at Agriculture university in Zagreb, but still she could combine love for vineyards and wine and love for the sea, sailing and cooking. Spomenka is a great cook, perfectionist in it. She enjoys making delicious pastries, and her specialty is a Mediterranean cuisine. Whether you are looking for a great meal aboard or a restaurant recommendation on the shore-you name it, and she will create it. As a hostess she worked before, on all types of boats and she proved herself as a great hostess, with a nice sense of humor who loves to keep everything in order and fill the atmosphere with the good spirit." Worked together with the skipper on Lagoon 560 „4JOY“ and Lagoon 620 „PLAN B“.
